## PROFESSIONAL SUMMARY

Experienced frontend & mobile developer with over 5 years of success in building innovative, user-centric web interfaces. I specialize in utilizing modern frontend technologies to craft visually appealing and intuitive user experiences. With a strong background in agile development environments, I have delivered high-quality interfaces across diverse industries, including FinTech, Healthcare, and E-Commerce.

## Main Skills

JavaScript, TypeScript, Node.js, Python, HTML5, CSS3

React.js, Next.js, React native, Vue.js, Nuxt.js

Express.js, Django, Flask

Tailwind CSS, Material UI, Figma, Bootstrap

Jest, Cypress,

MongoDB, SQL, Drizzle

## Recent Experience

### Lead Frontend Engineer @ Diaload

November 2022 - June 2024 | Remote, Nigeria

**Skills :** React.Js, Javascript, Typescript, Jest, Redux, Tailwind, Cypress

🔗**Product :** Diaload @ <https://console-uat.diaload.com/login>

- Spearheading the development of a testing application for mobile developers at Diaload.
- Collaborating seamlessly with cross-functional teams to integrate frontend and backend systems.
- Implementing advanced performance optimizations for an exceptional user experience.

### Full-Stack Developer @ mPedigree

September 2021 – Dec 2022 | Remote, Ghana

**Skills :** Vue.Js, Javascript, Python Django, Typescript, Jest, Tailwind, Pinia, Vuex.

🔗**Product :** DAIN @ <https://dain-staging.verifyfy.net/>

- Spearheaded the development of a file explorer system for securing files for higher institutions using Vue.js and Node.js.
- Orchestrated seamless integration of frontend and backend systems, collaborating effectively with cross-functional teams.
- Implemented advanced performance optimizations for an enhanced user experience.

## Lead Frontend & Mobile Engineer @ Hodlpay

February 2021 - Jan 2022 |

Remote, Ghana

**Skills :** Javascript, React.Js, React native, Next.Js, Typescript, Jest, Cypress

🔗**Product :** Hodlpay @ <https://app.hodlpay.io/>

- Led a high-performing frontend development team to build a system where cryptocurrencies can be bought or sold.
- Architected and optimized complex solutions, ensuring top-notch performance on the frontend.
- Initiated and managed CI/CD pipelines, reducing deployment times by 40%.

## Full-Stack Developer @ KTechHub

Dec 2018 - January 2021 | Remote, Ghana

**Skills :** Javascript, Vue.Js, Typescript, Jest

🔗**Product :** Dijievents @ <https://dijievents.com>

- Contributed significantly to the development of a platform for organizing events for higher educational institutions using JavaScript, Vue.js, and Node.js with server-side rendering.
- Mentored junior developers and championed best practices for both frontend and backend development.
