PROFESSIONAL SUMMARY

Seasoned frontend developer with a successful history of over 4 years in the field. Proficient in creating innovative user interfaces for web applications, I specialize in frontend technologies to deliver visually appealing and user-friendly experiences. My skills are honed in dynamic and agile development settings, and I have a strong background in crafting interfaces for various industries, including FinTech, Healthcare, and E-Commerce.

Main Skills

JavaScript, TypeScript, Node.js, Python, HTML5, CSS3

React.js, Next.js, Vue.js, Nuxt.js

Express.js, Django, Flask

Tailwind CSS, Material UI, Figma, Bootstrap

Jest, Cypress,

MongoDB, SQL, Drizzle

Recent Experience

Lead Frontend Engineer @ Diaload   Jan 2023 - Dec 2023 | Remote, Ghana

Skills : React.Js, Javascript, Typescript, Jest, Redux, Tailwind, Cypress

🔗Product : Diaload @ https://console-uat.diaload.com/login

- Spearheading the development of a testing application for mobile developers at Diaload.
- Collaborating seamlessly with cross-functional teams to integrate frontend and backend systems.
- Implementing advanced performance optimizations for an exceptional user experience.

Full-Stack Developer @ mPedigree   March 2022 – Dec 2022 | Remote, Ghana

(Part-time)

Skills : Vue.Js, Javascript, Python Django, Typescript, Jest, Tailwind, Pinia, Vuex.

🔗Product : DAIN @ https://dain.veryfy.net

- Spearheaded the development of a file explorer system for securing files for higher institutions using Vue.js and Node.js.
- Orchestrated seamless integration of frontend and backend systems, collaborating effectively with cross-functional teams.
- Implemented advanced performance optimizations for an enhanced user experience.

Lead Frontend Engineer @ Hodlpay   February 2021 - Jan 2022 | Remote, Ghana

Skills : Javascript, React.Js, Next.Js, Typescript, Jest, Cypress

🔗Product : Hodlpay @ https://app.hodlpay.io/

- Led a high-performing frontend development team to build a system where cryptocurrencies can be bought or sold.
- Architected and optimized complex solutions, ensuring top-notch performance on the frontend.
- Initiated and managed CI/CD pipelines, reducing deployment times by 40%.

Full-Stack Developer @ KTechHub   March 2020 - April 2021 | Remote, Ghana

Skills : Javascript, Vue.Js, Typescript, Jest

🔗Product : Hodlpay @ https://dijievents.com

- Contributed significantly to the development of a platform for organizing events for higher educational institutions using JavaScript, Vue.js, and Node.js with server-side rendering.
- Mentored junior developers and championed best practices for both frontend and backend development.

Education

- **Field of Study**
  Bachelor of Science in Computer Engineering

- **Name of Institution**
  University of Energy and Natural Resources @Uenr.edu.gh

- **Location**
  Sunyani, Ghana

- **Relevant Courses**

Web Design	Computer Programing
Data Structures and Algorithm	Operating Systems
Database	OOP
Software Engineering	Artificial Intelligence
Computer Architecture	Embedded System
